Reporting Requirements

NCID Reporting Requirements

- The NCID is a repository for aggregate claims data. The purpose of the NCID is to increase transparency around the cost of claims. Aggregate data is collected from insurers, including premium, policy and claims data. This allows the Central Bank of Ireland to publish annual reports containing analysis of the cost of claims, the cost of premiums, how claims are settled, how settlement costs vary depending on how claims are settled, and an analysis of the various types of cost that make up settlements.
- The current classes of insurance that are in scope of the NCID are:
 - Private Motor Insurance
 - Employers' and Public Liability Insurance.
- Further Information: <https://www.centralbank.ie/statistics/data-and-analysis/national-claims-information-database>

National Specific Templates (NSTs)

- The Central Bank of Ireland has a number of reporting templates ("National Specific Templates") which are deemed necessary to address requirements specific to the local market and/or the nature of insurance undertakings supervised in Ireland, and which are not catered for in the set of Solvency II harmonised reporting templates produced by the European Insurance and Occupational Pensions Authority ("EIOPA").
- Further information on the templates and the undertakings to which they apply can be found here:
<https://www.centralbank.ie/regulation/industry-market-sectors/insurance-reinsurance/solvency-ii/national-specific-templates>

Life Assurance (Provision of Information) Regulations, 2001

- Life assurance products help meet consumers' savings, investment and protection needs. Due to the long term nature of these products and the high financial outlay involved in many cases, the consequences of making the wrong decision can be very serious for the consumer.
- Life insurance undertakings must submit an actuarial certificate and an accompanying Directors declaration, as per Regulation 8(2) (a) and Regulation 8(2) (b) of the Life Assurance (Provision of Information) Regulations 2001. These documents must be submitted to the Central Bank within one month of the end of the financial year.

Unclaimed Life Policies – Certificate of Compliance

- The Irish State receives the proceeds of life assurance policies that lie unclaimed for between 5 and 15 years. Life insurance undertakings must submit an Unclaimed Life Assurance - Certificate of Compliance to the Central Bank of Ireland on an annual basis, pursuant to The Unclaimed Life Assurance Policies Act 2003.
 - Relevant Head Offices, EC Branches and Third Country Branches of Life Insurance undertakings must submit their Certificate of Compliance using the Central Bank of Ireland Portal.
 - Life Insurance undertakings operating in Ireland on a Freedom of Services basis, or via the Temporary Permissions Regime, should submit their Certificate of Compliance via email to insurance@centralbank.ie

Temporary Run-Off Regime (TRR)

- UK & Gibraltar insurers, to whom the TRR applies, following the coming into operation of Part 5 of the 2022 Act, are required to provide the Central Bank of Ireland with the information outlined in a Reporting Form no later than four months from the date on which Regulation 13A (as amended) applies to the firm and at least annually thereafter via the Central Bank of Ireland Portal. More information on the TRR can be found on our website:

Applicable Levies

Non-Life Premium Levy

- The Insurance Compensation Fund (the Fund) is primarily designed to facilitate payments to policyholders in relation to risks in the State where an Irish authorised or an EU authorised non-life insurer goes into liquidation and the approval of the High Court has been obtained for such payments.
- The Fund can also be availed of in circumstances where an administrator has been appointed under the Insurance Act (No. 2) 1983, and the approval of the High Court has been obtained. Specific details on payments from the Fund can be found on our website.
