To Whom It May Concern:

I am writing to give my strongest possible recommendation for Maria Torres, who reported to me for three years as a Senior Data Analyst at Nexus Analytics. Maria consistently demonstrated exceptional analytical rigor, translating ambiguous business questions into clear, actionable insights that directly informed product strategy.

Her stakeholder communication was outstanding, and she took on an informal mentorship role for two junior analysts on our team, both of whom credit her guidance directly with their own professional growth.

I recommend her without reservation and believe she would be a tremendous asset to any team fortunate enough to hire her.

Sincerely,

James Whitmore

Engineering Director, Nexus Analytics

Relationship: Direct manager for 3 years
